

# Raghav Somani

Second year Ph.D. student at  
**Paul G. Allen School of Computer Science & Engineering**  
**University of Washington**  
Advisor: **Prof. Sewoong Oh**

📅 July 17, 2021

## RESEARCH INTERESTS

I seek to understand machine learning problems with the help of mathematical optimization and probability theory.

|                                 |  |
|---------------------------------|--|
| <b>Research Interests</b>       | Machine Learning, Large Scale Optimization, Probability theory |
| <b>Other Learning Interests</b> | Geometry and Analysis, Pure Mathematics                        |

---

## EDUCATION

- **University of Washington**  
*Ph.D. in Computer Science and Engineering* *Sept '19 - Present*  
*Advisor: Prof. Sewoong Oh*  
**GPA: 3.88/4**
- **Indian Institute of Technology Guwahati**  
*Bachelor of Technology in Mathematics and Computing* *July '13 - June '17*  
**GPA: 9.10/10** (9.30/10 in major courses)

---

## WORK EXPERIENCE

- **Microsoft Research India - Research Fellow** *July '17 - July '19*  
*Advisors: Dr. Praneeth Netrapalli & Dr. Prateek Jain*  
Project group - **Provable Non-convex Optimization for Machine Learning Problems**
- **Microsoft Research India - Research Intern** *May '16 - July '16*  
*Advisor: Dr. Sreangsu Acharyya*  
Project - Recommendation systems
- **CAFRAL, Reserve Bank of India - Summer Research Intern** *June '15 - July '15*  
*Advisor: Prof. Nagpurnanand R. Prabhala*  
Project - Modeling 'Economic Policy Uncertainty Index' for India

---

## SELECTED PUBLICATIONS

### Conference Publications

1. **Robust Meta-learning for Mixed Linear Regression with Small Batches** [[paper](#)]  
W. Kong, **R. Somani**, S. M. Kakade, and S. Oh.  
*Advances in Neural Information Processing Systems (NeurIPS), December 2020.*
2. **Meta-learning for mixed linear regression** [[paper](#)]  
W. Kong, **R. Somani**, Z. Song, S. M. Kakade, and S. Oh.  
*International Conference on Machine Learning (ICML), July 2020.*
3. **Support Recovery for Orthogonal Matching Pursuit: Upper and Lower bounds.** [[paper](#)]  
**R. Somani**<sup>\*</sup>, C. Gupta<sup>\*</sup>, P. Jain, and P. Netrapalli.  
*Advances in Neural Information Processing Systems (NeurIPS), Montréal, Canada, December 2018. Spotlight.*
4. **Clustered Monotone Transforms for Rating Factorization** [[paper](#)]  
**R. Somani**<sup>\*</sup>, G. Hiranandani<sup>\*</sup>, O. Koyejo, and S. Acharyya.  
*ACM International Conference on Web Search and Data Mining (WSDM), Melbourne, Australia, February 2019.*

## Workshop Publications

### 1. Non-Gaussianity of Stochastic Gradient Noise [arXiv]

A. Panigrahi, **R. Somani**, N. Goyal, and P. Netrapalli.

*SEDL* workshop, *Neural Information Processing Systems (NeurIPS)*, Vancouver, Canada, December 2019.

\* - equal contribution

Please visit ([dblp](#)) or ([Google Scholar](#)) for the list of all research articles.

## RESEARCH PROJECTS

### Multi-layer large width Neural Networks

May '21 - Present

*Advisors: Prof. Sewoong Oh & Prof. Soumik Pal, University of Washington*

- Analytically understanding the limiting continuous as well as discrete training dynamics of arbitrary neural networks using the lens of limiting random graph theory, optimal transport and algebra.

### Robustness and Meta Learning for Mixed Linear Regression (MLR)

Nov '19 - Mar '21

*Advisors: Prof. Sewoong Oh & Dr. Weihao Kong, University of Washington*

[Page]

- Analyzed conditions under which abundant tasks with small data can compensate for lack of tasks with large data in the context of MLR. [arXiv]
- Tightened the conditions for the above exchange using the sum-of-squares method. Worked on making the subspace estimation step robust for MLR. [arXiv]
- Looked into Robust Subspace estimation for mixture distributions under the batch setting.
- ★ Works on Meta Learning and Robust Meta Learning with small batches got accepted at **ICML '20** and **NeurIPS '20** respectively. [video 1, video 2]

### Optimization and Generalization in Deep Neural Networks

July '18 - Sept '19

*Advisors: Dr. Prateek Jain, Dr. Praneeth Netrapalli & Dr. Navin Goyal, Microsoft Research*

[Page 1, Page 2]

- Understanding the dependence of batch-size (stochasticity), over-parameterization, and optimization on the generalization properties of a variety of neural networks on real world data distributions for classification tasks.
- Analyzing the dependence of support separation, number of hidden neurons, ambient dimension of data distribution, number of training points on optimization and generalization of neural networks.
- ★ A [work](#) on distributional characterization of SGD got accepted at the workshop **SEDL '19** at **NeurIPS '19**. [arXiv]

### Sparse Regression and Optimal Bounds for Orthogonal Matching Pursuit (OMP) Sept '17 - June '18

*Advisors: Dr. Prateek Jain & Dr. Praneeth Netrapalli, Microsoft Research*

[Page]

- Analyzed Accelerated IHT, trying to strengthen [Jain et al.](#)'s results for better support expansion and generalization.
- Analyzed OMP for the Sparse Linear Regression problem under Restricted Strong Convexity (RSC) assumptions obtaining its support recovery and generalization guarantees. Also provide tight lower bounds for OMP. Our results are the first such matching upper and lower bounds (up to log factors) for *any* Sparse Regression algorithm under RSC assumption.
- ★ Accepted for a **Spotlight** paper presentation at **NeurIPS '18**. [paper, spotlight video]

### Clustered Monotone Transforms for Rating Factorization (CMTRF)

May '16 - Aug '18

*Advisors: Dr. Sreangsu Acharyya (MSR India) & Prof. Oluwasanmi Koyejo (UIUC)*

[Page]

- Implemented and analyzed CMTRF for recommendation systems which performs regression under shared low-rank structure up to unknown monotonic transforms. CMTRF recovers a unique solution under mild conditions and also outperforms other state-of-the-art baselines on 7 real-world and 2 synthetic datasets.
- ★ Accepted for an oral presentation at **WSDM '19**. [arXiv]

## PROFESSIONAL RESPONSIBILITIES

1. *Reviewing*: [NeurIPS '19](#), [NeurIPS '20](#), [ICML '20](#), [JMLR](#).
2. *Teaching Assistant*: [CSE 446/546](#) Spring '21.

---

## SCHOLASTIC ACHIEVEMENTS

- 2013 Among top 1.7% of all selected candidates (126,000+) in JEE-Advanced (IIT-JEE).
- 2013 Among top 0.5% of all candidates (1,400,000+) in JEE-Mains.
- 2013 Among top 0.15% of all candidates (150,000+) in WBJEE.
